

Vacuum Distillation Technology

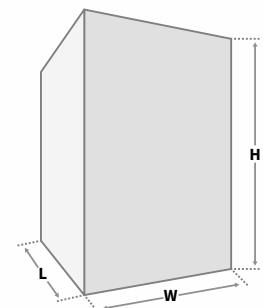

AKVAZEN Advanced Zero Liquid Discharge (ZLD) Technology brings Water Reclamation to a whole new level. Our US patented system not only reduces your total cost of disposal, it allows for the ability to RECLAIM and REUSE up to 95% of your process water. The result? A significant return on investment for your company and the environment.

Compact, Efficient and Effective

Based on vacuum distillation technology, AKVAZEN is one of the most efficient ZLD systems in the world with:

- Advanced Customization
- Fully Automated
- IoT & 4.0 Industry Compatibility
- Real-Time Monitoring & Remote Access
- 1-3 years ROI Guarantee*
- Compact & Efficient
- Self-cleaning & Predictive Maintenance
- 100% Environmentally Compliant

Model	Capacity** (Gals Per Day)	Energy (kwh/Gal)	Weight (Lbs.)	Overall Dimensions (feet)		
				L	W	H
PROVAC3	300	0.20	3,000	7	5	7
PROVAC10	1,000	0.19	6,000	7	5	8
PROVAC15	1,500	0.18	10,000	9	7	11
PROVAC30	3,000	0.17	14,000	12	8	12
PROVAC60	6,000	0.16	18,000	13	9	12
PROVAC90	9,000	0.16	22,000	15	10	12
PROVAC120	12,000	0.16	30,000	18	11	16
PROVAC180	18,000	0.16	36,000	25	12	20
PROVAC270	27,000	0.16	48,000	25	13	20

* Guarantee offer is based on industry standard disposal & utility charges.

** Reference capacity with fresh/city water, at 24 hr. run cycle per day, 5% average residue.
